| | City of Harlem - CDBG Program Income \$ 28,000 |
| <p>BUILDING FOR THE FUTURE</p> | |

The Montana Department of Commerce (MDOC) strongly encourages communities to use signs to publicize the project and the sources of funding.

More publicity regarding the project helps local citizens feel involved in the project. A well done project sign can help generate enthusiasm about your project and give people the feeling that things are happening in the community or neighborhood.
