

## EXHIBIT 11

### REQUIRED ORDER OF APPLICATION FOR HARD COPY SUBMISSION

The application must comply with the following format when submitting the application in hard copy. This format is meant to ensure a fair and equitable comparison of each application, and allow for the ranking team to easily locate information vital to the ranking process.

Each section must be separated using dividers with numbered tabs (e.g., **1** for Resolution, **2** for Uniform Application, **3** for Narrative, etc.). Also, the pages in the application from the Narrative to the Ranking Criteria must be numbered consecutively. Include supporting documentation as exhibits at the rear of the application, separated by dividers (e.g., lettered tabs A to Z). Exhibits with similar topics may be combined under one tab. Separating each topic with colored sheets of paper, etc., is helpful. Exhibits should be listed in the Table of Contents. Numbering of exhibit pages is not necessary.
