

EXHIBIT 4-E

ARCHITECT'S CERTIFICATION

Contract No. _____
Project Name: _____
Address: _____

ACCESSIBILITY REQUIREMENTS

All design specifications for the construction or substantial rehabilitation of any building shall comply with the applicable accessibility requirements of the Fair Housing Amendments Act of 1988 (Fair Housing Act) and the Uniform Federal Accessibility Standards adopted by HUD in 24 CFR Part 8, which implements Section 504 of the Rehabilitation Act of 1973.

PROPERTY STANDARDS

New Construction and substantial rehabilitation projects funded with HOME funds must meet Section 8 Housing Quality Standards, all local codes, rehabilitation standards, and zoning ordinances. New Construction projects must meet the current edition of the International Energy Conservation Code (IECC), published by the International Council of Building Officials (ICBO).

The undersigned certifies the above-mentioned HOME Project design meets the applicable accessibility and property standards discussed above.
