CHAIRMAN WILLIAMS: Thank you. Okay. On, on our agenda, we're going to A little different process with the agenda. And it's, it's an opportunity to, to involve the public more into the process. And after every item that, that on the agenda, we'll give the public an opportunity to comment on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	lots of facts and figures, and I will hand that out later, if I could, Mr. Chairman. And also, I wanted to also share with the Coal Board numerous meetings going on and, and workshops and conferences coming up in, in, a lot of them are in Billings. April 6th, the Wheeler Center is sponsoring the Future of Coal Forum right here in Billings. I don't have the contact information, but you can find that. April 18th and 19th is the Coal Reliant Communities Workshop, hosted by NATO and the federal EDA Administration right here in Billings. That's April 18th and 19th. And some of you that are in the room that participated or attended the Denver conference last year, it was well worth the free admission; absolutely fantastic conference, especially those of us that are being impacted in these smaller rural communities by coal impact. I would highly encourage that one. May 30th and 31st, Senator Daines's Energy Summit will be here in Billings as well. And later on in August, August 16th and 17th, we, our organization is hosting the 15th Annual Energy Open

MONTANA DEPARTMENT OF COMMERCE - TRANSCRIPT OF RECORDED COAL BOARD MEETING 3-22-18 1 is -- it does leave it open for interpretation, and I'm 2 2 And Mr. Chairman, I do have handouts, if I could share concerned that maybe our, our testimony is not always 3 those. 3 interpreted as we said it. So I would hope you would 4 CHAIRMAN WILLIAMS: Sure. Please. 4 consider doing our actual testimony in your minutes. 5 MR. ATCHISON: Okay. Thank you. 5 Again, thank you guys for all that you do. We really CHAIRMAN WILLIAMS: Thank you. 6 6 appreciate it. 7 7 MR. GERKE: Mr. Chairman, Members of the CHAIRMAN WILLIAMS: Thank you. 8 COMMISSIONER BERRY: Mr. Chair, Members of the 8 Coal Board, for the record, my name is Dennis Gerke, 9 9 superintendent, Hardin Public Schools. I'll be brief. Board -- woops don't knock that over -- Commissioner 10 I just want to take a moment to brag a little bit 10 Berry, Musselshell County. I'm not going to talk about 11 11 about our boys' basketball team, who won their first any specific grants, per your request, but I am just going 12 Class A Boys' State Championship in 21 years. And I'd 12 to talk a little bit about the direction that the Board 13 just like to share that with the Board and maybe make a 13 and the requests for grants is taking. 14 14 couple comments about Vice-Chair Fitzpatrick. You know, There is several requests for large grants, and 15 he told me that he coached some of these kids that were on 15 Musselshell County has also requested some large grants in 16 16 the team when they were in the intermediate school, and I the past. But what I am saying, I don't see the 17 17 know he coached some of those kids and he's done it for participation from the applicants that we have in the 18 about 20 years. But I can say this for sure: Thank 18 past. For example, Musselshell Schools has got \$500,000 19 goodness he did not teach them how to shoot. 19 for their, their schools, but we've also passed a 20 20 So with that, thank you for the opportunity. \$10 million bond issue. I think it's something like that. 21 21 CHAIRMAN WILLIAMS: Thank you. And Maybe Member, Mr. Schaff would -- but -- So yes. 22 congratulations. 22 And so that's what I'm saying. I'm seeing some of 23 23 MS. BAILEY: Mr. Chairman, Coal Board Members, these large grants come through, but where is the 24 for the record, I'm Kathie Bailey with Snowy Mountain 24 participation from the participant? We -- I feel that on 25 25 Development Corporation. I've been coming to these these large grants, there should be more participation 7 9 Coal Board meetings for over 17 years now, along with the 1 from the applicant, not just coming to the Coal Board for 1 2 2 legislative testimony, and it's been kind of quite a ride the majority of the grant. And I see a direction that is 3 3 to see the changes. And I do want to say that I probably going through the Coal Board now, and I think it's the 4 have not been more disheartened than I am right now, but I 4 wrong direction. 5 want you to know, as Coal Board Members, how much we 5 Our coal countries are mostly rural countries, and we 6 really appreciate the work that you're doing and the 6 have a lot of problems with public safety. And the public 7 7 impact that you're having in our communities. safety is things like our roads, road graders or gravel 8 Our rural communities that are impacted by coal have 8 hauling trucks and things like that, fire trucks, police 9 significant needs, and it's infrastructure needs, it's 9 vehicles. And those particular items are usually not real 10 social services needs, it's educational needs, a huge 10 large grant requests and we don't have a participation 11 litany of needs. And we really appreciate the resources 11 there but is actual needs for the coal counties for public 12 that we get from the Coal Board. They are critical, and 12 safety. 13 13 they are very important to us. And so I just want to summarize by saying I really do 14 14 In the past, I've asked for the finances so that we kind of question the, the direction that the Board is 15 could look and see what's happened over the years, and I 15 going or else the requests to the Board, and I'd like to 16 did not find them online, but I do see there is one in the 16 have the Board really take a hard look at these requests 17 17 book in the back. And I would hope that maybe either we and also some participation on some of these requests. 18 could upload that so that we could have copies of that or 18 Thank you very much. 19 it could be emailed out to us that are interested 19 CHAIRMAN WILLIAMS: Thank you, Mr. Berry. One --20 especially in that aspect of it. I would greatly 20 just a comment on, on that. When you're talking about 21 appreciate it. I couldn't see very well this morning with 21 participation, I'm going to figure that you're indicating 22 my little tiny print and my glasses. Yeah. 22 the degree of local effort in meeting those needs? 23 23 And the other thing, I was wondering if I could ask if Thank you.

That's because they're all of those projects that are tabled from the scheduled December meeting that was rescheduled to January. And then also, we have the applications for consideration which is March 2018. So I'll be using the March 2018 to begin our budgetary discussion. As you might recall, House Bill 209 that was passed

- 1 appropriation is broken up into two fiscal years:
- 2 Fiscal Year 2018, with the maximum appropriation available
- 3 of \$3,403,336; with federal -- or, excuse me, with
- 4 Fiscal Year 2019 appropriation being \$3,418,868. So the
- 5 combination of those two fiscal years equals your total
- 6 biennial appropriation of the \$6.8 million.
- 7 The revenue that has been available to date is
- 8 \$1,970,962.22. I'm going to flip you back to the revenue
- 9 history to explain where we're getting that number from.
- 10 So as you can see, this chart shows you revenue history
- 11 that has been coming into the Coal Natural Resource
- 12 Account as coal proceeds come into the state back all the
- 13 way to 2007. And I will point you to the last barred
- 14 chart at the very bottom of the page, because that's our
- 15 current fiscal year, 2018, that we're in and also shows
- 16 the current updated revenue amount.
- 17 So as you can see, since July of 2017 through February
- 18 of 2018, the Board -- Coal Natural Resource Account that
- 19 the Board has access to has received \$1,970,962.22. So
- 20 that's the revenue that we're talking about, not to be
- 21 confused with the appropriation, which is the ceiling.
- 22 That's what's been appropriated to you.
- 23 And we've had some discussions -- Department of
- 24 Revenue came last time and talked about why there is
- 25 reversals of the accrual. But I'm happy to answer any
- 15

- 1 questions about that.
- 2 So I want to point you to the handout that I just had,
- 3 to go through a little bit more information. So as you
- 4 can see, as you can see, what we're doing is trying to
- 5 link those two together so that it helps provide a more
- 6 clear picture to you of what that budget appropriation.
- 7 revenue available, cash-on-hand available comes to. And
- 8 if you go back to this Applications for Consideration, we
- 9 have to consider that the Board has already made, for this
- 10 fiscal year, project awards of \$2,805,640. So when you
- 11 take that away from the revenue available of the 1.9, that
- 12 leaves us in a shortage of \$834,000 of available revenue
- 12 to contract those projects
- 13 to contract those projects.
- 14 So let's look at our spreadsheet. I'm going to walk
- 15 through this. But the first column is -- or the first
- 16 section is talking about cash and estimated revenues, and
- 17 I want to point out estimated revenues. We don't know
- 18 what the rest of the fiscal year looks like, so we can
- 19 only estimate what that's going to be. So we've used the
- 20 2017 fiscal year as a gauge for what those months that
- 21 haven't received revenue will look like.
- So right now we have cash in the account of
- 23 \$5,530,816. The estimated revenue, meaning the last
- 24 months of this fiscal year that we haven't received
- 25 funding for yet -- of course, coal proceeds will continue

- 1 to come in and then that interest will come down into the
- 2 Coal Natural Resource Account -- is estimated at
- 3 \$1,274,938. Of course, that can fluctuate. It can
- 4 increase or decrease or approximately be the same. But we
- 5 don't do estimation of those revenue flow that comes into
- 6 the account. That's really Department of Revenue's job.
- 7 So our estimate is based off of what we saw last year. So
- 8 that's the best tool that we have. So the total amount of
- 9 cash plus the estimated revenues would equal about
- 10 \$6,805,754.
- 11 So the next section talks about what our obligated
- 12 accrual amounts are. So these would be -- what our
- 13 accrual balance is would be those projects that haven't
- 14 expended all of their dollars but have been awarded
- 15 contracts and funds through the Coal Board, so they're
- 16 obligated expenses, as well as anything that would have
- 17 been accrued. So those are the first two lines that make
- 18 up that \$3,478,023, as well as the outstanding Fiscal
- 19 Year '18 contracts that have been awarded this -- by the
- 20 Coal Board just now during this fiscal year of the
- 21 \$2,805,640.
- So basically what we're saying is we're taking a look
- 23 at everything that has happened in previous biennium and
- 24 previous fiscal year and we're adding it to the current
- 25 fiscal year obligation, because those have already been
- 1 awarded, and that's how we come up with those two numbers.
 - Then, of course, we have pending applications. And so
 - 3 if you look, we actually have a total of requests of about
 - 4 approximately \$1.6 million of pending applications. We
 - 5 can get into those details. And then -- but the pending
 - 6 applications are really, are really limited by the amount
 - 7 of appropriation. So what you'll see there is that
 - 8 there's a number, 597,696, so \$597,696. That is the
 - 9 amount that would be hitting the ceiling of this fiscal
 - 10 year's appropriation.

11

- Let me say it a different way. Of the amount of funds
- 12 that have been awarded to the Coal Board projects this
- 13 fiscal year, that \$2.8 million, there is a balance of
- 14 \$597,000 before you hit your appropriation ceiling.
- The special of the special control of the spe
- 15 CHAIRMAN WILLIAMS: Jennifer, just -- if I --
- 16 MS. OLSON: Yes.
- 17 CHAIRMAN WILLIAMS: Okay. So what we have
- 18 awarded to date is \$2,805,640, awarded to date. Available
- appropriation for the remainder of this year is \$597,696.
 MS. OLSON: That's correct.
- MS. OLSON: That's correct.CHAIRMAN WILLIAMS: That's available
- 22 appropriation. It's not available funds. Available
- 23 appropriation. So if the Board were to make awards, we
- 24 cannot exceed that number.
 25 MS. OLSON: So if
 - MS. OLSON: So if the Board were to make awards

I do want to are hinged on the decision today. 27 29 1 CHAIRMAN WILLIAMS: Mr. Kennedy, what -- when you 1 let you know since our February 9th meeting, we have done 2 and completed all of the environmental review checklists 2 say once you obtain this. What's your earliest that you 3 and information that was required of us. I do have copies 3 think that you'll go out for bid and what would be the 4 of that to pass out to the Board and to the staff, if 4 date that you would begin construction? 5 that's okay with you, just to give you that information. 5 MR. KENNEDY: I would love to go out to bid by 6 Okay. And I will let Robbie talk about the project as 6 early winter, looking at December of 2018. And that's 7 7 I do that. if -- Mr. Chairman, that's if the stars all line up and 8 8 everything works correctly. The delay of a couple months ROBBIE: The environmental assessment, we did a 9 public hearing. We did public notice of that hearing. 9 on, on this has, has delayed another grant, which has 10 And there was a resolution by Big Sky Economic Development 10 pushed us back a little bit. We were hoping to -- we're 11 to approve the environmental assessment, so we believe we 11 hoping that, by early summer to have the full 5 million 12 have met all the requirements for that particular item on 12 match and to go forward. But it does take six-and-a-half 13 13 the grant. months to do all the drawings for the building. 14 14 Any questions? CHAIRMAN WILLIAMS: So you're looking at December 15 CHAIRMAN WILLIAMS: Questions from the Board? 15 2018 to go out for bid; is that correct? 16 16 I've got a couple questions. One of the things that MR. KENNEDY: Hopefully. December is the soonest 17 I'm interested in hearing is an update on the funding that 17 we could go out for bid on this project. 18 is currently available. If you've got a \$15 million 18 CHAIRMAN WILLIAMS: That would be earliest. And 19 project, could you give us an update on where you are in 19 the earliest point of beginning construction would be 20 20 when? the process of obtaining those funds, please. 21 MR. KENNEDY: Mr. Chairman, Members of the 21 MR. KENNEDY: Would be next spring. 22 Committee, my name is Bill Kennedy. I'm the president and 22 CHAIRMAN WILLIAMS: It would be spring of 2019? 23 23 CEO of Montana State University Billings Foundation. Just MR. KENNEDY: 2019. So what we would have, 24 an update of where we are today. 24 Mr. Chairman, is with 2019, we will have -- once we go out 25 When we first started and we applied in this process, 25 to bid, and you all know the construction process, we will 28 30

MONTANA DEPARTMENT OF COMMERCE - TRANSCRIPT OF RECORDED COAL BOARD MEETING 3-22-18 unanimous in their support to move forward in this coal industry probably makes this investment, this 2 2 application and support of the University. And I'll talk long-term investment in education more important than it 3 3 a little bit about the commitment that we've made toward has ever been before. So it's in that context and in the 4 4 this process and will continue to make on an ongoing basis context of our willingness to continue to partner with you 5 to make sure that this is successful for our community and 5 and with our university and our communities throughout the 6 the fundraising is, is completed. And you have that, that 6 region that we would ask for your continued support of 7 7 pledge from me both personally and in representation of this project. 8 8 our organization. Thank you. 9 9 But I want to start by saying that we, we feel very CHAIRMAN WILLIAMS: Thank you. 10 10 strongly, as an economic development organization, about MAYOR COLE: Mr. Chairman, Committee Members, my 11 name is Bill Cole, and I am the mayor of Billings, the partnership that we continue to try and strengthen and 11 12 build. And I think, Chairman Williams, it was maybe 12 Montana. Steve Arveschoug mentioned the word 13 13 two years ago, we took a busload of our board members down "partnership," and I think that's a critical one. 14 to Colstrip at the invitation of Southeast Montana 14 Billings wants to be a great city, and we know that a great city requires a great university, and that requires 15 Development Corporation. Because we really wanted to be 15 16 16 on the ground and talk with you about what your community partnership. 17 17 is experiencing, what's happening, and kind of the We want to keep our kids here. We know -- we have to 18 in-ground-zero, as it were, with the, with the challenges. 18 fill about 15,000 jobs in the next 10 years because of 19 That meeting led to what we now refer to as our 19 attrition and in growth, and that means attracting the 20 20 Coal Country Coalition. It's a partnership of young, people between 20 and 40 in particular. So the 21 21 Southeast Montana Development Corporation, Snowy Mountain, problem, though, is that both Billings and MSUB need to 22 Beartooth RC&D, and Big Sky Economic Development. And 22 strengthen our core competency, our reputation in 23 23 with your help, with the Coal Board's help, we initiated technology and in science. 24 an impact study. The reason we're standing here today 24 Here's an example that was brought home to me just 25 talking about an investment in our university has a lot to 25 yesterday and earlier this week. I had meetings with the 35 37 leadership of Billings Clinic and St. Vincent's. Now, 1 do with what we discovered in that study, which we 1 2 2 probably in some part knew already, that we're connected. those are the two largest health care facilities in the state of Montana. Billings Clinic employs 41,000 -- or, 3 We're connected because of that coal industry. 3 4 4 That connection is no more stronger than it is with I'm sorry, 4100 employees, mostly here in Yellowstone 5 our regional university. That regional university 5 County but also around the state. My understanding is 6 connects us beyond our economy. It connects us in an 6 that Billings Clinic employees pay about 9 percent of the 7 7 education way. Students from throughout the region have property taxes either in Billings or in 8 8 an opportunity to attend school there, and they need and Yellowstone County. 9 9 But they have a problem. They are in the constant deserve a state-of-the-art science facility. And so this 10 investment that you're making in partnership with us and 10 hunt for physicians and nurses and techs, who can live anywhere they want. The jobs are out there anyplace. And 11 other organizations is really an investment in that 11 12 partnership that we want to continue to strengthen and 12 so they and we have to find a reason why they will say we 13 13 that we've all been a part of. will move to Billings, Montana. It's essential to their 14 14 Big Sky Economic Development has committed \$200,000, future, those institutions' future, and it's essential to 15 and then we went out to the community and started talking 15 our future. Right now, at any given time, we have a 16 16 to our business community, and we were able to get another deficit of approximately 100 physicians between the 17 \$100,000. Our pledge to the University is just in excess 17 Clinic, St. V's, RiverStone, and private health care 18 of \$300,000. We've got some more work to do, and we're 18 providers in Billings, roughly 200 nurses, and I don't 19 hopeful to bring to the table additional contribution 19 know how many rad techs and other technology workers. 20 toward this project. Myself and other staff people are 20 Reputation, competency in science, a good university is 21 committed to continuing to work with the Foundation to see 21 critical to attracting those people. And they know that 22 this through. 22 brand and identity and reputation of a community all goes 23 23 In, in my opinion and in closing, Jeff's comments together. 24 earlier about kind of the uncertainties that are -- that 24 So the City of Billings recognizes that, and, in order 25 you all live with on a daily basis with respect to the 25 to strengthen this partnership and build our core 38

- competency in science and tech, last year committed
- 2 \$50,000 of scarce public resources to this project -- that
- 3 money has already gone out -- because we recognize that as
- 4 MSU prospers, Billings will prosper.

5 Personally, my wife and I have toured the, the 6 existing science building and made a similar contribution

- 7 of \$50,000 to this effort because we've seen the existing
- 8 facility and we know the problems that are there. If I
- 9 were a parent and I were considering sending my children
- 10 to MSUB and science was going to be any part of their
- 11 curriculum, I would be very, very concerned. And that's a
- 12 problem for MSUB, but it's also a problem for Billings.

13 So on behalf of the City and myself and my wife, I 14 would just encourage you to look favorably on this grant

15 application.

16 Thank you very much.

CHAIRMAN WILLIAMS: Thank you, Mayor.

Other comments from the public?

MS. BIRD WILLIAMS: Mr. Chairman, Members of the

Committee. My name is Jody Bird Williams. I'm a resident

of Colstrip. I'm a former member of the Montana House of

22 Representatives, a former U of M Advisory Council member 23

during that time. And I have some questions. I wasn't at

the last meeting, I don't know what was discussed, but I

25 have some questions.

I know enrollment is down considerably at U of M, and

2 they just hired a bright, new, young guy that I think's

- 3 probably going to do a great job there. And I know
- 4 student costs are up and student debt is horrible. So I'm
- 5 thinking about these things. And I'm thinking education
- 6
 - is a wonderful thing. My family are a lot of educators.

And I think I heard Mr. Kennedy say timing is everything, and that's exactly what I woke up thinking

this morning. And I thought is, is this a little bit

ahead of its time? Because enrollment numbers are down,

11 costs of going to school are up, and student debt is so

12 high. And our state is full of aging people. Families

13 are not replacing the aging. They aren't having as many

14 children. So how many students are we going to have

15 available? Is it going to match the cost, the investment?

16 I'm thinking about all these things. I'm being practical.

17 And I'm not against the idea, because I think it's a

18 wonderful idea. But I'm just wondering about the timing.

And it also kind of bugs me. My first committee I ever staffed in Legislature was Appropriations, and I also

20 21 served on Taxation, Judiciary, and Natural Resources. And

22 it, it bothers me to see one group get the lion's share

23 and there's a lot of lambs out there in all the counties

24 in eastern Montana. We heard people talk about ambulances

25 and fire trucks and hospital elevators and boilers for hospitals. And those things are all needful. The smaller

2 counties are talking about merging together because they

3 don't have enough money. The smaller schools are talking.

4 Our school district, the Colstrip School District, we're

5 going to be in bad, bad shape.

6 And so I'm wondering, if enrollments are down all the 7 way through the school system, all the costs are going up,

8 is it the right time? That's my only question. But I

9 applaud the idea.

And I thank you for your time.

CHAIRMAN WILLIAMS: Thank you.

12 Other questions, comments?

13 MR. LARSEN: Chairman, thank you. I'm

14 Ron Larsen, currently chairman -- or currently chancellor

at MSU Billings. As many of you know, my time at 15

16 MSU Billings is coming to an end. There was a search for

17 the position and they have hired Daniel Edelman, who will

18 start in May. He contacted me vesterday and said is there

19 anything he can do to try to make sure this goes forward,

20 and I said, you know, we'll do the best we can.

It has been an amazing opportunity for me to be a part of MSU Billings. One of the moments that stands out to

23 me, we were having a, an enrollment management meeting,

24 and there was some question about who is our focus. And

25 there had been, at some point before my time, some

39 discussion on focusing on the Billings area high schools. 1

> 2 and I pushed back on that and said, "We are the university

3 that serves eastern Montana, and we're not giving that

away." And I was very pleased to see that the people

5 around the table were, were absolutely happy to have that

6 reaffirmed to them, that MSU Billings is the institution

7 that serves eastern Montana. And that makes us the

8 institution of coal country.

9 So I'm kind of humbled to be standing here with these

10 folks coming up and talking about the contributions they

11 have made. We are so thankful to Big Sky Economic

12 Development, and we're so thankful to the City and

13 everyone else who has contributed to this project. We are

14 getting close. We're not quite done. And the timing is

truly critical.

So thank you. It has been my honor to be a part of this. I thank you for what you're going to do, and I hope we can get it done. Thank you.

CHAIRMAN WILLIAMS: Thank you.

20 COMMISSIONER BERRY: I'm sorry, Mr. Chair, here I 21 am again, Members of the Board. Commissioner Berry from

22 Musselshell County, former representative, House

23 District 40. And I was in the House of Representatives

24 when this bill came before us, and I did vote for the

25 \$10 million knowing that the community had to raise

42

5 million.

2 And I'm not saying this board should award it, and I'm 3 not saying this board should not award it. But that was

4 the process of our -- or that was the intent of our

5 legislation as I remember, which is getting harder and

6 harder to do at my age. But it was our intent that the

Legislature would appropriate \$10 million and the

8 community was to raise 5 million to get this project done.

9 So I just wanted a little bit of reminder, a little bit of

history of what was behind this. And I'm not saying what 10

11 the Board should do or shouldn't do, but that's just a

12 little bit of history.

Thank you, sir. Thank you, Members of the Board.

CHAIRMAN WILLIAMS: Thank you, Commissioner.

MR. KENNEDY: Mr. Chair, Members of the

Committee. One thing I do want to bring up is I'm pretty sure that Board Member Roose is on the line, I just don't

18 think she -- the star-2 and can get through, so you may

19 want to check on that.

> A couple of things. This process has been on the books for a while. The Legislature has approved of it.

21 22 The Legislature talked about it last session. We looked

23 at a bonding bill. The bonding bill went through

24 10 votes. First time I've seen that in the Legislature in

25 my 40 years of working the Legislature.

43

18

19

20

21

22

10

11

I am a educator, taught in Colstrip. Taught your daughter, John, back in '81 through '84. I was there

during the boom of the 3 and 4. We were trailer trash on 3

4 the hill. We knew that. We were 7600 people strong. Now

5 we're down to about 2200 in Colstrip. I was there during

6 the, during the growth and the building of the \$13 million

school in Colstrip, which has gone from a Class A school

8 now down to B and, and possibly could drop below that.

Everyone in Colstrip came to Billings to shop, came to

10 Billings to, a lot of them to doctor. My dentist was in

11 Colstrip, and I moved to Billings and my dentist

12 recommended me to the dentist here. We do a lot of things

13 together in coal country. And just to remind Members,

14 Yellowstone County does have a coal mine in it,

15 Signal Peak Mine. And we appreciated, as I was county

16 commissioner, you allocated some dollars for the, for the

17 mine road for us.

> But every one of those school districts in southeastern Montana is dependent on educators and the sciences. And with that, as I talked to Commissioner

Small-Eastman, and the chancellor and I made a trip down

22 to Lame Deer and visited about educators, it's needed. I

23 read in the paper all the time -- and school districts, we

held a reception and talked to teachers about STEM. This

25 weekend for all of southeastern Montana, we have the

science expo.

2 Education, science, and to be able to provide 3 instructors all over eastern Montana throughout coal

4 country is very important. Mayor, you talked to us when

5 we were down in Colstrip about keeping people in your

6 community. You need educators in Colstrip. You need to

be able to educate the students so people stay. All of

8 that is very important.

9 This building -- And people say, well, wait a little 10 bit. You can't wait any longer. It's been on the docket for over six years. The head count at the University is

11 12 over 4400 students. We have students from all over

13 southeastern Montana. We have students from Eastern

14 Montana College, Montana State University Billings, that

are in each of your communities, coal country. We are 15

16 coal country. The one thing that people say is Billings 17

won't be affected like the other communities. That's wrong.

A few years ago, we went to bat for the Southeastern Montana Experimental Station because they shut it down over in Huntley. Why? There's a \$17 million cash crop of sugar beets in this valley that affects Billings, Montana,

23 and Main Street. Coal country affects Billings, Montana,

24 and Main Street. The University reaches out and its

25 tentacles are all over coal country and around the state

1 of Montana.

2 So as we go forward and we talk about 3 percent of

3 this budget is building -- rebuilding a 70-year-old

4 building that's not adequate to serve the needs of

5 education, of the sciences.

6 And the last thing I want to talk about is the 7 superintendent over in Hardin talked about his

8 championship teams, and I want to congratulate them.

9 Lodge Grass went to State.

Our athletics, our training, our nursing program that will be housed, some of it will be housed in this

12 building, all reach out to every one of the communities.

13 This is very important. I think we've delayed long

14 enough. It's time to move forward. And we would invite

15 you for the groundbreaking and making sure that you're a

16 part of this.

17 We really appreciate your support today. Thank you.

18 CHAIRMAN WILLIAMS: Okay. Thank you.

19 Other comments from the public?

20 Okay. Discussion from the Board.

21 I'll make a couple comments on it. I support this.

22 I've, I've always supported what you're attempting to do

23 and what you will accomplish. My reluctance and my vote

24 against it was the fact it was \$500,000, a half a million

dollars. That was my issue, and it has been my issue all

46

13 of 72 sheets

- along on this.
- 2 This is a very large amount of money. And when we
- 3 have the responsibility as a board on taking a look at the
- 4 statutory requirements that are placed on this board, one
- 5 of the things right up at the top of the line, and
- 6 Representative Berry is here, but Representative Essmann
- 7 was here, would the need of the proposed project enable
- 8 the applicant to adequately address to provide for
- 9 governmental services and facilities that are needed as a
- direct consequence of an increase or decrease in coal 10
- 11 development or in the consumption of coal by a coal using
- 12 energy complex?
- 13 Those are the rules that we -- that was the first.
- 14 that's the first rule that we're required to follow, the
- first statute. And for us to fund this at a half million 15
- dollars I feel violates that statute, though I do support 16
- 17 it, at probably a lesser amount of money than what you've
- 18 requested.
- 19 You know, we lose sight of the fact of the value of
- 20 what coal has been to our communities throughout Montana.
- 21 Everybody has benefited as a result. You know, and the
- 22 one tax alone that is collected on coal, the severance
- 23 tax, over \$2 billion has been allocated out across the
- 24 state of Montana as a result of the mining and the power
- 25 generation that occurs in coal country, those folks that
 - 47
- live and work there. The process that we're going through 2 and have been going through for 40-plus years is to assist
- 3 those communities in the impact associated with that.
- 4 This board has been very responsive over the many,
- 5 many years that -- We get a small percentage of that
- 6 \$2.1 billion that's been collected. We've been very
- 7 responsive to allocating that back -- a large portion of
- 8 it has gone back to education. Over 30 percent has gone
- 9 back to education, of the funds that we work with. But it
- 10 has gone to the school districts within the coal-impacted
- 11 communities. It has gone to Hardin, it has gone to
- 12 Lodge Grass, it has gone to Lame Deer, it has gone to
- 13 Colstrip, it has gone to Forsyth, those school districts
- 14 that is required by law for them to provide education.
- 15 Some has gone into the higher education. Some has
- 16 gone -- I don't know what, if anything -- I believe
- 17 something has gone back into MSU. And as far as my
- 18 support on it, you're right, Mr. Kennedy, you taught my 19 daughter there. She also graduated from Eastern. And so
- 20 did my son and grandson. You know, so I have supported
- 21 Eastern individually and I support as a board all of the
- 22 educational processes that we've been able to work with in
- 23 coal-impacted communities. Increase or decrease in coal
- 24 development, those are the statutes that is placed before
- 25 us that we're required to follow.

- And while I support this, I don't support it at the
- 2 half-million-dollar level. And those are my thoughts.
- 3 But I do support it. And I support your effort. So
- 4 that's, that's my position on it. And I think if I back
- 5 off from that, I feel that I do a sacrifice against the
- integrity of what I am involved with on my 6
- 7 responsibilities. I've been involved with this board for
- 8 over 14 years as a member.
- 9 Prior to that, I appeared before this board as a
- 10 representative of an impacted community, of people that
- 11 live and work in the coal industry. And this was designed
- 12 and set up to address those folks and to work with them on
- 13 the quality of life that they have on providing that
- 14 tremendous resource back across the state of Montana.
- 15 Education, infrastructure, police protection, fire
- 16 protection, medical, all those items that add to the
- 17 quality of life that we're involved with in coal country
- 18 place value on existence. So that's -- you know, it's not
- 19 that I don't support it. I do. But not at the current
- 20 level.

22

25

- 21 Now, having said that --
 - VICE-CHAIR FITZPATRICK: Mr. Chairman, I have a
- 23 comment.
- 24 CHAIRMAN WILLIAMS: Yes.
 - VICE-CHAIR FITZPATRICK: So the record reflects
 - in my book here we gave \$500,000 to Colstrip for Phase 1
- 2 water; we gave \$500,000 to Representative Berry --
- 3 Commissioner Berry's school; we gave \$300,000 to
- 4 Rosebud County. That's the record I have right in front
- 5 of me today.
- 6 I'm Sidney Fitzpatrick, Big Horn County Commissioner,
- 7 for the ones that don't know me that are sitting in the
- 8 audience. I'm a tribal member from the Crow Tribe. My
- 9 constituents are the Crow People and the Cheyenne People
- 10 in the Busby area. They're my constituents. That's who I
- 11 speak for today.
- 12 When this was under scrutiny -- This is the third time
- 13 now. The second time, I heard the presentation when we
- 14 were at MSUB with the counselor, with bringing counselors,
- 15 training counselors in the LE building for my people. I 16 want to have them trained counselors so they're not looked
- 17 upon when they come to this beautiful city. Because I'll
- 18 tell you what, bigotry is alive and well today here. It
- 19 is. That's the truth.
- 20 So if I sit here heading to 60 years of age, being
- 21 sober for almost 40 years, and I'm going to, I'm going to
- 22 make a motion to approve this for my constituency, also
- 23 remember I have three coal mines in Big Horn County.

Three. And, you know, I'll tell you something, every time

- 25
 - when I came to that podium -- I've been in this seat

50

	MONTANA DEPARTMENT OF COMMERCE - TRANSC	RIP1	OF RECORDED COAL BOARD MEETING 3-22-18

3	up with local effort and the county paid half of the	3	not actually an eligible project.
4	project. Half. If we asked for 100,000, we paid 50,000.	4	And so it was my recommendation that the Coal Board

CHAIRMAN WILLIAMS: Okay, Board, I'll call the meeting back to order. Here's my suggestion to the Board, is we move into all of the Well, let's see. First of all, we've got to do the environmental things, don't we? That's the first thing. Then we'll go into the tabled applications. So let's these were the environmental issues that were awarded at the January meeting. So Anne. MS. PICHETTE: Thank you, Mr. Chairman. At the January meeting, some projects were awarded but no environmental action was taken during that awarding, so we need to go back and look at environmental on the ones that were awarded at the previous meeting. So the Board has the option to in some cases such as this, to take on the environmental determination themselves and to make that environmental determination in order for the project to be completed.

12	And so your the Board does have that responsibility and	12	considered exempt. We would agree with that.
13	holds that liability as that determination is made.	13	However, we don't understand the full context of what
14	The option that we've talked about numerous times,	14	that equipment purchase might be, you know, being used for
15	particularly at the Coal Board orientation and then I	15	or how that relates to the environment. Local interested
16	think most recently at the September meeting, is that the	16	parties probably would have some thought about that. So
17	Board can require that the local government or the	17	as part of the Coal Board review process, we say just go
18	eligible applicant complete the environmental review	18	through an environmental public hearing process, public
19	process and come back to the Board with that completed	19	meeting, engage the public and see if there's any
20	process in order to move forward. So it's not solely on	20	comments. So that's what we're replicating here today.

14 BOARD MEMBER SMALL-EASTMAN: Yes. 14 BOARD MEMBER HENNING: So motioned.	
15 MS. PICHETTE: Chairman Williams. 15 CHAIRMAN WILLIAMS: And second?	
16 CHAIRMAN WILLIAMS: Yes. 16 BOARD MEMBER SCHAFF: Second.	
17 Thank you. Next one. 17 CHAIRMAN WILLIAMS: It's been moved and second	nded
18 MS. PICHETTE: The next one is No. 0836. It was 18 to exempt them, with them to follow up with the required

And the code of ethics is a little bit more stringent than the actual conflict of interest rule that you have in your internal management procedures. So it would be my recommendation that if you have a direct conflict of interest, that instead of just recusing yourself from actually So the conflict of interest in your internal management procedure says that you may not participate in any decision that's relating to contracts that affect your personal interest or the interest of any corporation, partnership, or association in which you are directly or indirectly interested or you have a personal or pecuniary interest, direct or indirect, in the contract or in the process thereof. And the way that your management procedures has actually defined what participate means, it means that you are prohibited from making motions, seconding motions, and voting. So as a baseline, that's my recommendation, that you definitely do not participate by making motions, seconding motions, or voting. VICE-CHAIR FITZPATRICK: I have a question. So

So the asking amount would be 284,000. And I would also like to add in there while I'm up here that our board has approved going to our voters for a building reserve levy for our elementary. We are asking for \$100,000 over the next 10 years from our elementary district, and we are asking for 50,000 a year for the period of 10 years for our high school district in an effort to partner with everybody on that. So again, from 384,300 down to 284,000 that we are asking for. I'd entertain any questions at this time. CHAIRMAN WILLIAMS: What I'll do, Superintendent, is we'll take that off the, off the table and then we can	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	funds into the project, and our bids came out a little bit less than we had anticipated. CHAIRMAN WILLIAMS: Okay. MAYOR PURCELL: Thank you. CHAIRMAN WILLIAMS: Thanks. It's still not going to get there. Let's go, let's just go ahead and walk down through these rather than let's Yeah. Let's take I'll entertain a motion to remove 841, 842, 843, 844, 845, and 846 from the table. BOARD MEMBER SCHAFF: So moved. CHAIRMAN WILLIAMS: Second, please. BOARD MEMBER ROOSE: I'll second. CHAIRMAN WILLIAMS: It's been moved and seconded to remove those applications from the table. Discussion? Comments from the public? Vote, please. MS. PICHETTE: Vice-Chair Fitzpatrick. VICE-CHAIR FITZPATRICK: I recuse since they're all in my county. MS. PICHETTE: Shawn Fredrickson. BOARD MEMBER FREDRICKSON: Yes. MS. PICHETTE: Amber Henning.

That's passed to remove all those applicants interstate just parked there. I kind of feel like why are 9 9 from the table. Now we'll begin the process. Everybody we patrolling the interstate and not the Big Horn County 10 keep in mind what we have. Available appropriation is 10 road? And why are all the sheriff -- the Big Horn County 11 11 \$597,696. That's what we have for the rest of this year. Police Department being, serving Hardin more so than their 12 Big Horn County, 841. This is the law enforcement 12 satellite communities, such as Hardin -- or such as 13 vehicle fleet upgrade. 13 Lodge Grass, Crow Agency, Wyola, and Pryor? Why isn't 14 Go ahead, Anne. 14 that happening? We need to see more police out in those areas rather than out on the interstate parked there. 15 MS. PICHETTE: Thank you, Mr. Chairman. 15 16 COMMISSIONER FENNER: I can answer part, part of 16 No. 0841, Big Horn County law enforcement vehicle fleet 17 17 upgrade, \$69,646. The applicant is requesting \$69,646, of that last question. I know the City of Hardin pays us a 18 a total project cost of \$99,646, in Coal Board funds to 18 fee to police, to police the area. But overall, Big Horn 19 complete the purchase of two new patrol vehicles. The 19 County sheriffs gotta -- you know, they're, of course 20 20 request to the Board is 70 percent of the project cost. they're more busy in town. Most of the crime is in town. 21 21 The applicant states the need to upgrade vehicles as Probably 85 percent of the crime is in Hardin, Montana. 22 22 the current fleet has aging vehicles with high miles. The Of course, there's, there's stuff all over the county 23 23 existing fleet of 13 vehicles includes 8 with over that goes -- And a lot of times I know we're getting calls 24 70.000 miles. 24 from the commissioners' office, you know, that -- after 25 CHAIRMAN WILLIAMS: Mr. Fenner. 25 the fact, of course, it's always after the fact, that they 83 85 1 COMMISSIONER FENNER: Mr. Chairman and Members of go and a crime is committed and stuff. But basically, you 1 2 2 the Coal Board. My name is Chad Fenner, a Big Horn County know that -- you know, to get a service, you've got to pay Commissioner. I come before you for the law enforcement 3 3 for it. Everything you've got to pay for nowadays. And 4 4 vehicles. We, we got a couple that need to replaced. the City of Hardin has come up, you know, and has paid us. 5 We're in a union; we have a union contract. I know the 5 And of course, we could definitely use more deputies. 6 mileage is probably more than when we sent that. They 6 That's, that's an issue that's been around since I've been 7 7 come to 120,000 and we've got a union that makes us commissioner. You always need more deputies. But of 8 8 replace them. course, in turn, that means more taxes and stuff. 9 9 And usually on the deals like this, in the past we've But that part, you know -- I know they're moving 10 always given 50 percent. I know Board Member Fitzpatrick 10 around a lot more. They're going to satellite areas where 11 11 said that. We always try to match the Coal Board, the you're talking about, the small towns in the county and 12 funding from Big Horn County. And with the reduction of 12 stuff. They have done that a lot better under the new 13 13 coal in this past year or two, we've, we've noticed a sheriff. And hopefully we can see more of that. But like 14 14 decline and that's why we went to 30 percent on that. I said, to get deputies out there, of course, you need 15 And like I said, these vehicles are needed. I mean, 15 vehicles, which we're asking for, and you need the 16 16 deputies themselves, which is -- you know, it's all, it's crime everywhere, Big Horn County, is on the rise and it's 17 17 something, a tool that we need. We need that. all money. It's all taxes. 18 And I also want to -- we have, like was said coming up 18 And Mike, you might, you might want to talk about on 19 here, the library, the fairgrounds, the City of Hardin, 19 the interstate 20 20 and the Hardin Public Schools. Big Horn County also wants MR. FUSS: And I apologize, I'm trying to fight 21 to support them. And if you have any more questions -- I 21 off a cold. But a lot of times those deputies are on the 22 know you heard the, our Undersheriff Fuss speak of this 22 interstate because we get calls from other agencies such 23 23 last meeting, but if you have any more questions, he's as Yellowstone County or BIA and we're looking for a 24 24 certain vehicle that might be a drunk driver or a stolen here to answer any questions you have. 25 25 vehicle. And sometimes those deputies are sitting out Thank you. 86

And one other thing I'm going to come after you on, Mr. Fenner, and you've heard me say this before, Big Horn County has no debt; correct? COMMISSIONER FENNER: You are correct. And I'm proud of that. That's my job. That's my job as a county commissioner. CHAIRMAN WILLIAMS: I understand that. But on the criteria, statutory criteria, one of the issues that we need to look at as a board, it says you shall look at, is the county's indebtedness or local government indebtedness. So if I compare this with other, other places that have significant debt, particularly Musselshell County, significant debt, and so does Roundup, another applicant. So that's the thing that we have to look at. And that's great for you to stay debt-free, but it is criteria, as you well know. COMMISSIONER FENNER: But in the, in the You

We had 150 children sessions on those five computers and we had 697 adult sessions, which gives us over 480 hours of computer usage just in February. Right now we have, one of our modems is down at the library. We've been kind of gimping along trying to for our WiFi, and we have not been able to give our patrons the WiFi service that they have come to expect because we can't afford the new modem. I guess that's if you have any questions, I'll try and answer them for you. CHAIRMAN WILLIAMS: Okay. Questions from the Board? BOARD MEMBER HENNING: Yeah, a couple questions,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	supplemental documents that were mailed out that Big Horn County supplied for all three. If that's helpful. BOARD MEMBER HENNING: Yes, it is. Thank you. CHAIRMAN WILLIAMS: Other questions? BOARD MEMBER HENNING: I did have a further inquiry. What other grants have you looked into for this funding? MS. BOYER: We haven't gone looking for any other grants at this point. We got the commissioners have been generous and have committed \$10,000 to the project, and that's as far as we've gotten so far. We are working with a capital improvement plan, putting it together so that we can go and look for other grants if need be. CHAIRMAN WILLIAMS: Other questions? MS. BOYER: Oh. We are up for an election in June where the library every two years the library goes out and asks for five mills additional to what the commissioners, the County gives us. And this year we're
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	resumés, job applications and such that our computers won't handle what they're doing. 1	CHAIRMAN WILLIAMS: Okay. Thank you.	1	do this whole project?
2	MAYOR PURCELL: Chairman, Coal Board,	2	MAYOR PURCELL: We are short the 129,000 to do
3	Joe Purcell, mayor of City of Hardin.	3	the complete project.
4	Like I stated earlier, I had asked for our application	4	CHAIRMAN WILLIAMS: That's what you're short,
5	to be tabled at the last meeting so I could review more	5	129
6	funding sources. I was hoping to be able to pull some	6	MAYOR PURCELL: Correct.

9	that. We were able to reduce it by 40,000. So the	9	MAYOR PURCELL: Correct.
10	request I come with today is at \$129,296 to help kind of	10	CHAIRMAN WILLIAMS: The additional money that
11	complete that project.	11	you'll receive as far as the gas tax ratio, have you, have
12	Any questions of the Board?	12	you identified where you're going to put that money?
13	BOARD MEMBER SMALL-EASTMAN: Mr. Chair.	13	MAYOR PURCELL: The current moneys and the
14	CHAIRMAN WILLIAMS: Yes. Please.	14	projected moneys for the next year or the next quarter is
15	BOARD MEMBER SMALL-EASTMAN: I would like to ask,	15	around 120,000, and that money would be earmarked towards
16	have you sought out additional funding from other agencies	16	this project. We do have the potential of looking forward
17	that are part of the community of Hardin?	17	even to the next quarter, and the way I understand that
18	MAYOR PURCELL: We have, in the past have	18	money is it's probably about the 30 to \$40,000.
19	solicited the school, see if they would help come in with	19	CHAIRMAN WILLIAMS: So you could, you could set
20	that project. The discussion was brought up over an SID,	20	aside some of those funds in order for this to move over
21	which is kind of our last resort type of an option.	21	to this project, or had you planned on setting some of
22	TSEP at this point we do not qualify for because of the,	22	those funds aside?
23	the loans and stuff we have out at this time with our	23	MAYOR PURCELL: The 120,000 is part of this

7	BOARD MEMBER SMALL-EASTMAN: You mention the	7	took over as mayor. There's been a, a history of, of the
8	Hardin School District. Have they provided a match at all	8	ask through the school board that was denied. The way I
9	for any funds?	9	understand, the biggest hang-up is just the school board
10	MAYOR PURCELL: No, they have not.	10	has a lot of projects going themselves.
11	BOARD MEMBER SMALL-EASTMAN: They haven't?	11	The main ask from the City to the school board was
12	MAYOR PURCELL: No.	12	because the street basically kind of surrounds the school.
13	BOARD MEMBER SMALL-EASTMAN: Thank you.	13	It's our school parking lot. It's the main activity
14	MAYOR PURCELL: You're welcome.	14	entrance for all of our sporting events and that.
15	CHAIRMAN WILLIAMS: Mayor, what's your debt?	15	Budget-wise, I don't think it has been considered in as
16	MAYOR PURCELL: Large. I don't have the exact	16	far as the school board. I don't know all the details, of
17	numbers with me. I do know that with our industrial park	17	course, of all that process, but
18	and our, and our TSEP part, we're looking at approximately	18	The City and the school does not have a bad, a bad

I CHAIRMAN WILLIAMS: What happens if you don't 4 receive the money on this, Superintendent? What are you, 4 just have to take it little bites at a time. 5 Our debt load right now -- at the time of the 5 what are you folks -- what's your plan? 6 6 application was a little bit over 2 million. We paid off MR. GERKE: We'll get more five-gallon buckets to 7 7 \$88,506 since then. However, we had to borrow an put around the pool. We don't, we don't have a plan. I 8 8 additional 175,000 for some new x-ray equipment. We have mean, if you -- we'll have to come up with the money 9 9 purchased -- with the \$5,000 that we received in somehow. Maybe it will be end-of-year funds if we've got 10 something left over there. You know, we would have to 10 donations, we have purchased 15 new mattresses, and the 11 11 residents are very appreciative of it. It's not only just look at money that we don't have earmarked already. 12 12 an upgrade. It's also a safety and an infection control. CHAIRMAN WILLIAMS: You've indicated you receive A lot of times with old mattresses we have experienced bed 13 13 gross proceeds. Do you know what you receive a year? 14 14 ulcers or, old term, bed sores. So the residents who have MR. GERKE: I should know that. 15 CHAIRMAN WILLIAMS: I know what has been paid 15 received new mattresses are greatly appreciative of it. 16 16 If we do not get the grant, that does not mean this out. Interesting that what has been paid out -- over half 17 17 a billion dollars has been paid out of gross proceeds tax project isn't going to go forward. We're just going to 18 slow it up a little bit, buy a few more -- or a few beds 18 since it was initiated. 19 19 at a time. However, as things look, we might actually MR. So I'm hoping that this money that's for the library would go towards that; that will be additional funds included in that. And I'm just kind of wondering if Jennifer might be able to confirm that, with the withdrawal of the Northern Cheyenne Utilities Water application. MS. OLSON: I'm just going to defer that to Anne, because I think she has the letter that — MS. PICHETTE: Are you looking for the exact dollar amount that was in the letter they sent? BOARD MEMBER SMALL-EASTMAN: I believe it was 47,000 that they, that they're withdrawing.

	MONTANA DEPARTMENT OF COMMERCE - TRANSCI	RIPT	OF RECORDED COAL BOARD MEETING 3-22-18
1	BOARD MEMBER SMALL-EASTMAN: Okay. Thank you.	1	amount. And so again, if revenues exceed the
2	And so with that being so would it be possible to use	2	appropriation, then that will be really the discretion of
3	this money for Big Horn County technology rather than for	3	the Legislature, if they how they give the percentage
4	Northern Cheyenne, if they're withdrawing that	4	of 2.9 percent or 5.8 percent to come into the Coal
5	application?	5	Natural Resource Account, or, and if it comes in lower,
6	MS. OLSON: So let me, let me answer it this way:	6	they don't you know, the Legislature could also modify
7	I think that that's really So when funds come back in	7	what's in the balance in the account, they could take that
8	to, to the Board's consideration, so somebody returns	8	money and put it somewhere else. But that's part of that
9	those funds, those funds would then go back into the Coal	9	conversation that would happen at the legislative level.
10	Natural Resource Account. So because it's the prior	10	CHAIRMAN WILLIAMS: Thank you.
11	biennium, that's where this is funded out of, you can't	11	Other discussion?
12	direct them to the current biennium.	12	I'll make a comment. I think that Big Horn County has
13	However, it still just goes back into the Coal Natural	13	committed \$10,000 to this library capital improvement
14	Resource Account. So those funds I'll go back to the	14	needs, as identified in their application. And I would
15	budget spreadsheet that I handed out. Those funds are	15	encourage them to increase that to do those necessary
16	listed as an obligation as of this moment, right, thinking	16	activities associated with the library capital
17	about it still being obligated under the \$3.4 million	17	improvements. I don't think it would take a lot for that
18	obligation. So when that obligation comes out, you'll see	18	to occur, and I would encourage that to occur. I think
19	that that accrual balance will be modified to show and	19	the library is an important project, but I, but I will not
20	reflect that those funds are no longer obligated. Then	20	support the funding request as, as, as it is.
21	they go back into the cash available account. So it	21	Any other discussion?
22	becomes cash that's available.	22	BOARD MEMBER HENNING: Yes, Mr. Chairman.
23	So when we look at appropriation and revenue in this	23	CHAIRMAN WILLIAMS: Yes.
24	biennium, you cannot exceed the appropriation amount by	24	BOARD MEMBER HENNING: I just wanted to state
25	\$6.8 million. So if appropriation is, if appropriation is	25	yes, and I agree that this library improvement is a great
	119		121
1	lower than revenue, that money sits in the account, so	1	need. It is important for a community. However, I, I
2	you're not A dollar is a dollar is a dollar that it	2	also feel that funding it at the fund requested without
3	turns into. So the direction of \$45,000 is irrelevant.	3	having the County look at other funding resources, I feel
4	If revenue is less than appropriation, that \$45,000	4	that there are more sources out there that could fund this
5	still is sitting in the account, it's still available for	5	project in addition to our funds. I still want to support
6	the Board to access, but it's really, again, a dollar is a	6	this, but not at the requested level.
7	dollar is a dollar.	7	CHAIRMAN WILLIAMS: Other questions? Comments?
8	So you can't so hopefully that makes sense. You	8	Comments from the public?
9	can't direct these funds from one biennium to another,	9	BOARD MEMBER SMALL-EASTMAN: Mr. Chair.
10	one; but two, the money still goes back into the Coal	10	CHAIRMAN WILLIAMS: Yes.
11	Natural Resource Account. And if revenue, again, exceeds	11	BOARD MEMBER SMALL-EASTMAN: You suggested that
12	appropriation, that money will be there for the next	12	the County fund the library another 10,000. With that
13	biennium regardless of where it is.	13	being the case, would you be willing to reduce it by, by
14	So you still are only allowed the \$597,696 as	14	10,000 and still award them the 20,000, what they need?
15	appropriation authority to award. So as you're	15	20,433.
16	considering awards, that's what is the maximum amount.	16	CHAIRMAN WILLIAMS: I but what we have right
17	Revenue sets the minimum; appropriation sets the maximum.	17	now, Veronica, is a motion to fund it at the \$30,000
18	Does that answer your question?	18	level. It's been seconded. If there's other action other
19	BOARD MEMBER SMALL-EASTMAN: Yes. And because of	19	than that, it would need to occur after, after the vote or
20	that money going back into the Coal Board revenue account,	20	some type of other motion.
21	you know, it will eventually be recorded as an asset. And	21	BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I'd like
1		22	to make an amendment to the motion of
22	so basically it is available eventually when you get

MONTANA DEPARTMENT OF COMMERCE - TRANSCRIPT OF RECORDED COAL BOARD MEETING 3-22-18 does -- or maybe I could ask you this also, what is the committed to that, depending on district funds we have, 2 2 minimum that you could work with, knowing the situation the help of the Coal Board. 3 3 we're in? So to answer your question as honestly as I can, I 4 Would this accomplish it? 4 believe that our current board is committed to making the 5 BOARD MEMBER SMALL-EASTMAN: Could I ask how much 5 improvements they need to have on that community center. 6 it would cost just to fix the roof? Because I remember --6 Because it's not just for Hardin. Crow uses it, and 7 7 I recall, when I was going through this grant, that there Sidney knows that, and a lot of -- We have a lot of people 8 8 was other costs that were (inaudible). You know, like the that use that. And our revenues from last year from that, 9 9 (inaudible) work around the pool and under the pool. I think I presented those to you, were less than \$100,000 10 MR. GERKE: Yeah. Mr. Chairman, 10 that we take in in revenue, and the school district pays 11 11 Ms. Small-Eastman. The bid we got was the -- What was the out the rest. We pay all the help. We pay all the 12 percentage of (inaudible) for? What percentage of that 12 maintenance. We pay all of those costs, to the tune of 13 was it? 13 almost \$600,000 a year. So we're taking over a 14 MS. PICHETTE: Push to talk. Sorry. The 384,300 14 half-million-dollar loss on keeping that open. 15 that was the original request of the \$499,590 was 15 In a nutshell, that's, that's what it is. And those 16 16 are hard numbers. I think I included that with 77 percent. 17 17 everything. So... MR. GERKE: Okay. So 500 grand was the estimate 18 18 that we got to fix that. That roof has been on that CHAIRMAN WILLIAMS: Okay. Thank you. So we 19 19 could -building since the building was built. It's 33 years old. 20 20 BOARD MEMBER SMALL-EASTMAN: Mr. Chair. So we've got it down to 284. Okay? Now, to answer your 21 21 question, that's a hard question to answer. Okay? If I'm CHAIRMAN WILLIAMS: Yes. 22 22 going to be the superintendent there, John, we're going to BOARD MEMBER SMALL-EASTMAN: I was just looking 23 23 commit to get the project done if you would give us at their, page 8-5 of their application where they have 24 \$100,000. But, you know, that's not my choice, that's the 24 412,000 to operate and maintain the swimming pool, and 25 board's choice. 25 then their annual revenue for the swimming pool is 47,924. 139 141 1 So I'll be a proponent for the 100,000. And so we would have to look at our -- you know, we'd 1 2 2 have to look at our funding at the end of the year. We And I would also like to (inaudible) keep that swimming pool open (inaudible) Crow Fair to do maintenance 3 would have to look at our Impact Aid dollars. We would 3 4 4 have to look at our general fund. We would have to look (inaudible) for the school year (inaudible) have it before 5 5 Crow Fair. During Crow Fair, you have so -- you have at at our, our coal proceeds. So that's a really hard 6 question to answer that you ask me. 6 least 10,000 people that come to Crow Fair that need a 7 7 CHAIRMAN WILLIAMS: If you know that we are place to shower, need a place to go swim. And I think 8 8 willing to work with 100,000, (inaudible) you carry that that if they kept that swimming pool open during that week 9 9 back to the board and give us a yes or no? and weekend, that that would add a big, huge revenue to 10 MR. GERKE: Yes. And I have a board meeting 10 the swimming pool. That's my suggestion. 11 11 Tuesday night. CHAIRMAN WILLIAMS: A motion? 12 CHAIRMAN WILLIAMS: Okay. Let me ask you this 12 A STAFF MEMBER: You do have a motion and a 13 13 question. I don't recall the answer to that. When did second to consider funding. 14 14 you have this scheduled to work on it? CHAIRMAN WILLIAMS: To consider the funding. 15 MR. GERKE: Well, if we, if we got the money, 15 A STAFF MEMBER: At 284. 16 16 we -- I mean, it's gone this long. Okay? This, this roof CHAIRMAN WILLIAMS: At 284. Let's, let's do 17 17 just didn't start leaking. All right? We've got by since this: I'm going to do a substitute motion to (inaudible) 18 I've been here, and this is my fourth year. And so it 18 at the \$100,000 level. 19 would be something that can wait, but it's -- the 19 BOARD MEMBER HENNING: I'll second. 20 20 problem's not going to go away. The problem's always CHAIRMAN WILLIAMS: It's been moved and seconded 21 21 for the substitute motion for \$100,000 level. Discussion? going to be there. 22 22 Discussion of the public? But we also have other challenges, as you know, with 23 23 our feasibility study with the pool in Hardin. And so Vote on the substitute motion. 24 24 part of our long-term plan was to do it in steps, okay, MS. PICHETTE: Vice-Chair Fitzpatrick. 25 25 VICE-CHAIR FITZPATRICK: Recuse. this being the first step. And I think the district is

15	this year. So again, when we're talking about	15	that. Discussion?
16	prioritization, I, I understand the, the history of this	16	BOARD MEMBER HENNING: Mr. Chairman, I guess I
17	specific grant application, but I don't think that it's	17	would like a clarification on the motion, whether it's
18	imperative that it be moved up to the very top or make	18	moving up to the very top of what has been allocated thus
19	that prioritization different based on their specific	19	far or back to the original MSUB grant number.
20	timeline. Again, we can talk about that if there's a	20	CHAIRMAN WILLIAMS: Marianne, what's your
21	specific motion, but that's just based on what Mr. Kennedy	21	BOARD MEMBER ROOSE: I don't know. I guess I'm
22	said earlier.	22	not sure what that number was and what she's saying.
23	So I guess, Mr. Chairman, I would make a motion to	23	Because if it's a lesser number, it would automatically go
24	(inaudible) these grants that (inaudible) number.	24	to the top if you're going by the MSUB. However, we

Re: Request for Extension for the Track Repair Project (#0796)

Date: April 24, 2018

Dear Coal Board Members,

RECEVED

APR 27 2019

DEPARTMENT OF COMMERCE
COMMUNITY DEVELOPMENT DIVISION

I am asking the Coal Board to extend Project (#0796) to March 31 of 2020. The primary reason for asking came from the contractors at the on site meeting here in Hardin. The request for extension came about in response to their concerns with meeting the current schedule to complete the project by September 1st. The weather we have had this past winter also set the project back substantially.

There was also confusion about the contract setup. It was not clear to them that there would be a General Contractor with the subcontractors under their control. The contractors would like more time and information including core samples of the asphalt track and the substrate under. This would allow them to set more accurate quantities of excavation and fill. The bid tabulation form was too long and complicated.

Should you have questions concerning this extension request I will be present at the June 20th Coal Board meeting or available by teleconference during the meeting.

Sincerely.

Mr. Dennis Gerke Superintendent

RE: Lodge Grass School Hill Road

Dear Members of the Coal Board;

We respectfully request to extend the expiration date of June 30, 2018, of contract #MT –CB-17-0785 to October 31, 2018. The contract is in the amount of \$203,280.00 and supports the road surface improvement project of the Lodge Grass School Hill Road. While the project is near completion, we are waiting for the weather to cooperate to complete the final phase, i.e. chip sealing and painting roadway stripes. In an effort to plan for the unexpected, we think is it is necessary to request this extension.

Thanks for your time and consideration.

Sincerely,

RE: Coal Board Contract MT-CB-0759 Wastewater Project to Miles City

The City of Colstrip would like to request an extension to the above referenced contract. The contract expiration date is June 30, 2018 but the project will not be finished by the expiration date of Billings (COLSTRIP)

The project is approximately 95% completed. However, the City of Colstrip is having difficulty getting the contractor to finish the remaining 5% shland

Please consider this letter as a formal request for a six-month extension. If you have any questions, please contact me at (406) 748-2300, extension 2304 or at cityclerk@cityofcolstrip.com.

Sincerely,

RE: Request to Extend Grant Contract #MT-CB-17-0787

Dear Members of the Coal Board,

On behalf of the Crow Tribe, I respectfully request to extend the Time of Performance in Grant Contract #MT-CB-17-0787 to December 31, 2020. Currently, the Time of Performance terminates on March 31, 2019. As you may recall, the Tribe is combing this \$200,000 in grant funds from the Coal Board with grant funds from Treasure State Endowment Program, Renewable Resource Grant and Loan Program, Community Development Block Grant Program, and USDA Rural Development to construct a new East Frontage Road lift station and replace approximately 6,720 linear feet of collection main.

I am pleased to report that an extension is needed because the scope of work for the project has grown to include replacing an additional 4,380 linear feet of collection main. US Indian Health Service recently announced it is granting the Tribe approximately \$2.42 million to replace the additional main. The Tribe needs additional time to complete design and construction activities. By expanding the scope of the project now, it likely allows the Tribe to experience cost savings related to project design and construction methods. The Tribe estimates cost savings in bidding expenses, construction management services, and contractor expenses (e.g. bulk purchasing of materials, mobilization, and traffic control) by constructing a larger project at one time, as opposed to constructing it as two smaller, separate projects.

I appreciate your consideration of my request. If you have questions about the project please contact Mr. Cedric Black Eagle, CTWRD Cabinet Head, at 406-638-1017 or Cedric.BlackEagle@crow-nsn.gov.

Sincerely,

Alvin "A.J." Not Afraid, Jr.

RE: Request to Modify Use of Coal Board Funds in Grant Contract #MT-CB-17-0787

Dear Members of the Coal Board.

On behalf of the Crow Tribe, I respectfully request to modify the use of Coal Board funds in Grant Contract #MT-CB-17-0787. As you may recall, the Tribe is combing this \$200,000 in grant funds from the Coal Board with grant funds from Treasure State Endowment Program, Renewable Resource Grant and Loan Program, Community Development Block Grant Program, and USDA Rural Development to construct a new East Frontage Road lift station and replace approximately 6,720 linear feet of collection main. I am pleased to report that the scope of the project has expanded to include replacement of an additional 4,380 linear feet of collection main. The expansion is made possible by funds recently granted by US Indian Health Service.

In the current Grant Contract (#MT-CB-17-0787) between the Coal Board and Tribe, all \$200,000 in Coal Board funds is allocated to the Construction line item. I respectfully request to move \$113,000 in the Construction line item to the Engineering Design and Bidding line item. The expansion of the project requires additional, substantial design services at the frontend of the project; unfortunately, other funders in the project have stringent requirements that bar or limit the use of their funds for design and bidding services. If you approve this proposed modification, the project will get to bid more efficiently.

I appreciate your consideration of my request. If you have questions about the project please contact Mr. Cedric Black Eagle, CTWRD Cabinet Head, at 406-638-1017 or Cedric.BlackEagle@crow-nsn.gov.

Sincerely.

STATE OF MONTANA DEPARTMENT OF COMMERCE MONTANA COAL BOARD MEMBERS

To whom it may concern;

The Northern Cheyenne Utilities Commission (NCUC) was awarded \$170,356.00 back in June 2017 for Water & Wastewater Equipment. The first attached prioritized equipment list consisted only of the 2 maintenance trucks and backhoe that exceeded the \$170,356.00 allowable budget. However, NCUC does have a backhoe that is operational and functional, however the prioritized need is for maintenance vehicles. NCUC pumphouses are off road and in isolated areas and must be monitored daily with an average round mileage trip of 250 miles per day.

After careful deliberation of the original submitted equipment list, NCUC is in dire need of the second attached budget prioritized list. This allows NCUC to acquire most of the original listed items but also a 3rd truck for maintenance use to help cover and travel to all 5 district communities water and wastewater systems that NCUC operates and maintains. This new prioritized equipment budget does not exceed the granted \$170,346.00 award. Your time, consideration and attention to these changes would greatly be appreciated. Please contact me directly if you should have any questions or concerns.

Sincerely,

Sheri Bement

The meeting was called to order by acting Mayor Picchioni. Clerk Lanter called roll with council members Weitzeil, Liggett, Picchioni, Griffith, Toombs, and Martin present. Schladweiler absent.

Moved by Toombs, seconded by Liggett to approve the August 1st, 2017 minutes. All in favor. Motion carried.

Moved by Liggett, seconded by Martin to approve the agenda. All in favor. Motion carried.

Compliance Personnel Bruce Hoiland gave an oral report. He had six permits, which includes two chicken permits.

Law enforcement submitted their written report. A copy was mailed with the council packets.

Clerk Lanter updated the draft budget with the new mills and mill values. The mill value increased by \$118.62 which will increase tax revenue by approximately \$5,500. The budget public hearing will be September 5, 2017.

The treasurer's report was given to the council members.

The parks committee met to discuss the four man football sled the school requested be stored at the city field. There are a few concerns of liability and securing the sled. Toombs will visit with Director Sibley about the sled.

The parks committee will meet with Deanna Wolff September 19 to discuss swim lessons and possibly charging fees for lessons.

Moved by Toombs, seconded by Griffith to exclude the dump truck grant from the environmental review for the Coal Board grant application. All in favor. Motion carried.

Bruce Hoiland made a public comment about the federal judge who has stopped the Signal Peak Mine expansion.

Moved by Toombs, seconded by Weitzeil to adjourn the meeting. Motion carried. The meeting adjourned at 7:10 p.m.

Linda Hammett Greenwalt 1499 Big Horn RD RT1 Box 1140 Hardin, MT 59034

Dear Linda,

Thank you for your inquiry regarding the Coal Board application from Hardin Public Schools (#0846) which was awarded Coal Board funding at the March 22, 2018 Coal Board meeting.

Per the Chairman's request we are providing a response to your letter. As part of the application, a budget, that includes all sources of funds to be used for the project, must be submitted with the application; and also narrative regarding the current financial and physical status of the facility as it relates to financial and physical needs. This information is provided by the applicant and used by the Board to make awards based on the statutory criteria. The applicant did not provide any information specific regarding insurance payments.

Lastly, as stated in the Coal Board application document, "Applications will be evaluated as they are submitted. The Board may table an application if significant changes or new information are presented during the hearing." This allows the Board to inquire about any project details that may or may not have been provided in the application.

As requested by the Chairman, a copy of your letter will be provided to the Board in their packet for the June meeting.

Sincerely,

A.C. Rothenbuecher Operations Manager P.O. Box 1902 Colstrip, MT 59323

Dear Chairman Williams,

After listing to the Superintendent of the Hardin School District at the March 22nd coal board meeting discussing the roof project for the swimming pool activity center and its' needing replaced, I have just one question.

My question is: Did the school district receive any insurance payments for roof replacement due to the last few year's worth of hail damage, and if so, why is the district asking for money from the coal board, and initially so much?

Personally speaking, we spent 3 summers in a row reroofing shops (1), garages (3) and houses (3), decks (1) and replacing house siding (2) only to have them hailed out within days and one roof was hailed out just within hours of completion.

As a member of the Big Horn County Fair Board, hail damage at the fairgrounds was bad enough that all the roofs at the fairgrounds were replaced. I cannot imagine that the swimming pool roof was spared, with hail damage so wide spread for 3 summers in a row here in Hardin.

Unless I missed something from their (school district's) initial testimony, nothing was mentioned about receiving insurance payments for the roof replacement in question.

I would appreciate hearing back from you. I can be reached best through regular mail at 1499 Big Horn RD, RT 1 Box 1140, Hardin or email at glgreenwalt@tgrsolution.net.

Thank you for your time.

Şincerely,

Linda Hammett Greenwalt

Dear Ms. Greenwalt:

Rosebud Hysham to Miles City

I have received your letter dated April 19, 2018 inquiring on the Hardin School application for Coal Board funding. As you are aware, the Coal Board awarded Hardin School District \$100,000 toward the activity center pool roof replacement. The school district's request was for \$384,300.00.

I have forwarded your inquiry and request for information to Ann Pichette, Administrative Officer, Montana Department of Commerce for her handling.

The Coal Board award to the Hardin School District was based on information supplied by the applicant. I do not recall any questions or information that would have indicated insurance involvement.

Thank you for your interest.

John N. Williams, Chairman Montana Coal Board
